A Note from Andy Fremder, President

We started East Bay College Fund five years ago with a simple mission: To help young people from low-income families obtain their college degrees - their single best chance to forever transform their lives. People always ask me, "How is that college project going?" The short answer is, "It's working": We have shown that a grass-roots effort can be powerful, effective and rewarding. Thanks for being part of the East Bay College Fund community. We appreciate your continued support.

What We Have Accomplished Together

- Awarded over **60 four-year college scholarships** worth over \$1 million
- Scholars are starting to **graduate from college!**
- On track to achieve our **75% target graduation rate**
- Scholars have created a **community** to support one another
- An exceptional volunteer **Mentor** corps provides support to our Scholars
- Broadened financial support includes **corporations and foundations**

Looking Forward

- Annually award **15-20 additional scholarships**, with Mentor support
- Develop **internship and alumni** programs
- **Expand our impact** within the larger community through partnerships
- Continue to grow our network of **Donors and Volunteers** (tell a friend!)
- Transition from start-up into growth phase, led by expanded Board and new **Executive Director, Michele Davenport**

*Thanks for helping me go to CAL...and thanks for helping save paper. Please send your email address to:
